Intro

Thank you for downloading the pokie handbook. This book will soon become your new best friend. Before you know it you are going to be hearing the sweet sounds of a feature win, on your favourite game.

Make sure you save this book so you can find it easily as it's packed full of tips, tricks, and loads of bonuses. Some of the information in the guide will also work at land based casinos, but it is geared towards online pokies, as you will find much better and bigger wins.

My Background

Before we get started I want to give you a little bit of back ground behind my Pokie playing experience.

I was around 10 when I had my first win on the Pokies....I started early I know!!.....Mum had stopped in for a quick drink at the local, and she had given me \$5 to put in to a machine (small bars in NZ were very laid back in those days.).

I played my \$5 and won nothing, but after raiding her purse, I found a few more coins.

With these new coins burning a hole in my pocket, I went and pop them into a machine. All of a sudden I saw 3 treasure chests with the option to pick one. I selected a chest and won \$40.....I was shocked.....I still remember Mum's words, "you tinny little B@#tard!!".

I played a few more times as a youngster without much luck, but it wasn't until I was around 20 when I started paying on a regular basis.

Me and a couple of mates (Adam, and Mark) would often start, or finish our night with a few spins on the reels. It was here that we coined the phrase "quick 20?". We would play at a bar called Lucky Charley's. They had 15 link games for a \$1000 jackpot. Their game selection was really amazing with all the classics including Queen of the Nile, Inca Sun, Seal the Deal, and Dreams of a Geisha.

We had some great wins up there.....Well Mark mainly, who won the jackpot up there one night. The jackpot was at around \$950 (which had to be won by \$1000) and it was just Adam, Mark and me there.

After about 30 minutes of playing I heard the jackpot go off, and I looked around to see Mark dancing around his machine. I remembered back to my Mum's saying....."You tinny B@#tard!"

They were good times..... Until Lucky Charley's shut down. We then started going to the casino as there was a great bar as part of the casino. A few friends were dj's there so we would go along to hang out with them, and pop into the casino for a "quick 20".

I then moved overseas on my OE, leaving Adam and Mark to it. However I couldn't find the games I wanted in the UK. The UK has slightly different games and I got fed up with them. They are mainly old, 3 reeled games and I couldn't work them out.

They were nowhere near as good as the modern games that are in Australia and New Zealand. They looked like the old games that were in the local rugby club in the early 90's. On top of having crap games the payout rates were set to around 60%.

It was an email from Adam that introduced me to Online Pokies. I had mentioned my disgust with the Pokies (slots as they call them) in London. He told me about some online casinos he played at.

I wasn't too sure about them, but Adam explained how online pokies are built on the same software as normal pokies, but they are set to pay out more. There are also more games, bigger jackpots, and bonuses.

Since playing online I have picked up loads of tips and tricks that I will share with you over the following pages. There are some secret techniques in this handbook that I am certain will help you to play more pokies and win more at the same time.

Just before we get into it, I just want to say thanks again. I hope you enjoy this guide. It will improve your pokie experience and I am sure you will start winning loads more.

Haydo

Enough chat.....let's get into it.

New Player section:

Why online pokies trump land based pokies? If you are new to online pokies you will quickly learn how much better playing online is. The games themselves use the same software, and random number generators as casino pokies but have a higher payout rate. Online Pokie Machines are same as you would find in the pub so you still have the same paylines and features.

The main difference you will find is that online pokies are set to payout at a much higher rate. In a casino is pokies payout at around 80% where as an online game is set to **over 95%**. This means you have a better chance to win big!!!

The other great part to playing online is the bonuses you receive. Most casinos will give you a bonus of around 100%-400%.

Later in this guide I will teach you some secret pokie systems, which when used correctly are highly effective ways to increase your winnings.

More reasons to play online:

- No more dirty old bars
- No more jackpot stealers
- No more over-priced drinks

Now you can drink reasonable priced drinks and play pokies from your sofa. If you're a smoker, no more giving up that machine that's ready to blow.

Need a toilet break?...Well now you can simply just go, rather than figuring out how to hold your machine, just to find out someone is on it when you get back.

Adam's horror story. Adam, Mark and I popped into the casino for a "quick 20" one night. After a few beers Adam announced he was going to

win the \$75,000 in the large jackpot game. As he went to sit, a man quickly took the machine Adam was about to use

Adam being polite (half cut) figured he would just sit at the next machine along.....After about 5 minutes Adam returned to tell us the story, and how the machine he had just given up had won the \$75,000 jackpot.

Now that doesn't happen all the time, but I bet you have a story or two you could share like this.

Don't get me wrong, playing online isn't as social. The pub is still fun for a "quick 20", catching up with some friends for a few drinks, or if you see a jackpot is about to blow.

Online casinos are getting wise to the fact that players like a bit of social activity, so you can now play in pokie tournaments. They will often be called slot tournaments in most online casinos, but they are worth a try once you have played a few times

Your Safety

Online safety is a hot topic at the moment. You do need to take a bit of care as there are hundreds of online casinos out there. The trouble is not all are regulated and audited, meaning some are rogue casinos.

I have made sure all the casinos I recommend or link to, are casinos that I personally trust. All of these casinos I have personal played at, and successful withdrawn from.

In my research for this book and my website, I have made sure all the casinos are licensed, audited, and have the latest fraud protection software.

I also recommend using an online payment system like [Neteller](#).

Neteller

Neteller is an online wallet. You can top up the account, and use it to make safe online deposits. You can then load your winnings back onto the

The Pokie Handbook

Neteller account. This will make sure your payments are kept as safe as possible.

Neteller is easy to setup just click on [Neteller](#), and fill out the online form.

Create a NETELLER account

Step 1: Account information **Step 2:** Personal information **Step 3:** Sign in credentials

Please provide the following information to create your free account.
Your personal information is protected by our [Privacy Policy](#)

Account information

Email address* Confirm email address*

Country* Desired account currency*

UNITED KINGDOM ----- ?

Security information

Password* Confirm password* Minimum of 5 characters.

Security question* ?

Answer* Your answer should be unique but easy to remember

Terms of use

I agree to NETELLER's [Terms of Use](#) and [Privacy Policy](#).*

Account setup is free, and you will not be charged for creating an account.

Tip. Once you have signed up to upgrade your account you will receive a prepaid credit card. These are great for a night out playing the pokies in a casino. Just pre-load it with your bankroll for the evening. Then you will not over-spend after a few drinks.

How to get online.

First of all because this is a pdf, if you get a warning when you click on a link, just click allow. All links are safe, it's just a security warning that is always promoted in adobe reader.

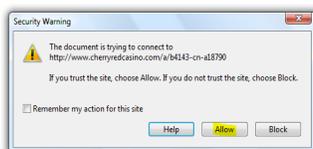

The Pokie Handbook

Getting online is very easy. Just follow the steps below. Keep in mind you don't have to deposit any money if you don't want to. You are welcome to play on free play mode. In fact if this is the first casino you have joined I would encourage you to play the first time on free play.

Follow these easy steps to get started

1. Click on ==>>>[City Club Casino](#)
2. Click allow on the pop up box

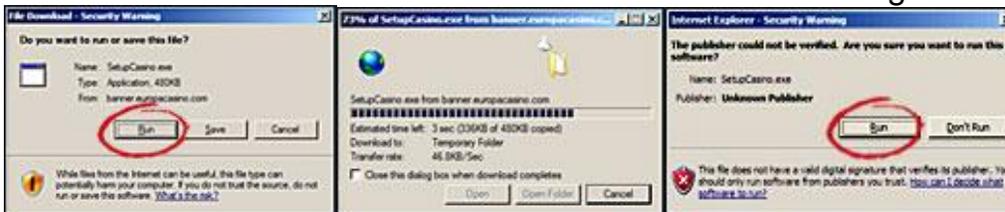

3. Click on "Play Casino"

4. Download the casino software. (do this now while you read on)
 - 4a. Click on Play Instant Casino if you don't want to download the software, or if you're a Mac user.

----Click on Run Wait for the download Click Run again

5. Once the software has downloaded you need to create an account.

-This is extremely simple. You start by loading the casino for the first time by double clicking on the icon on your desktop. When the casino is loaded, select "Play For Real Money" and you will then be prompted to set up a new account

-If you want to play for free setup a practice account.

Casino Bonuses

When was the last time you were given FREE money to gamble with? I bet never is the answer if you only play pokies at the pub or casino.

Well at online pokie casinos you are often given free money.....they call it a deposit bonus. A deposit bonus will usual be written like this, 100% or 300% and so on. What this means is they will give you the % of your deposit FREE to play with.

For example.....a \$50 deposit with a bonus of 100% mean you will get \$50 free, giving you \$100 in total to play with. If it was 200% you would get \$100 free giving you \$150 to play with.....and so on.

Do read the terms first as the bonuses usually have a play through rate.

Some also offer it as a bonus code. This means you have to enter the code in as you are depositing of after. In the "Pokie Hand Book" I will tell you if you need to enter a code, and if there's an order to follow.

Play more win more

Bankroll Management System

First, never play more than you can afford. Pokies although fun have an element of risk involved.

I recommend you maximize your deposits to get more than 100 spins from your deposit. You are aiming to hit the feature to WIN BIG.

So the more you spin the more chances you have of hitting a feature. If your balance is around \$50 and you are playing a 25 line machine then aim to play around 2c per line.

\$50 divided by 25 lines = 2 so if you play at 2c per line you will be playing at 50c per spin which will give you at least 100 spins for your \$50 balance.

Bankroll Guide:

\$25 to \$50 bet 1c a line (1c x 25 lines = 25c x 100 spins = \$25).

\$50 to \$100 bet 2c per line (2c x 25 lines = 50c per spin x 100 spins = \$50).

\$100 play or more at 4c per line (4c x 25 lines = \$1.00 x 100 spins = \$100).

Try this method at [Rushmore Casino](#). Use deposit bonus code 400FREE to get a 100% deposit bonus, up to \$400.

Check out Aztec's Treasure.....this game has a sweet little feature and it's a progressive jackpot game.

[Click here to play at Rushmore Caisno](#)

Casino Blaster Systems

Casino Blaster Systems are techniques used by online pokie players. They take advantage of the way online casinos work.

You want to make sure you pick a system that suits your style of play.

There are 2 typical players: The **Bankroll Player**, and the **Precise Player**

If you're more of a social player and like to build your bankroll this means you are a **Bankroll player**.

Bankroll players (like me) like to build a big balance. They want to see their bankroll building and play for large jackpots.

Where as **Precise Players**, will typically be less of a social player and likes to have full control of their deposits. Precise players will play the odds more, and play for higher stakes which means they tend not to chase jackpots as much.

Bankroll Players I suggest the **Bonus Blaster System**

Precise Players I recommend the **Direct Deposit Technique**

Bonus Blaster System:

The bonus blaster is a system which allows you to build a healthy bankroll. It takes advantage of casino deposit bonuses. With this system you will create accounts over different casinos and take your winnings to build a healthy bankroll.

This system **doesn't work at every casino** due to their play through rates. Play through rates are, the amount of times you have to play your bonus money before you can withdraw.

Use the casino I have recommended in this part of the guide for the best results using this system. If you already have an account at the casino(s) I have mentioned you will find a list of alternative casino below.

How it works.

This system works by depositing into one casino and then withdrawing your winnings and depositing them into a second casino. Giving you bankroll in both casinos.

To start with create an account at Europa Casino and deposit between \$30-\$50 (for instructions on creating an account refer to the new play chapter.

Once you have created your new account and successfully deposited, select a pokie (slot) to play. At [Europa Casino](#) I recommend spin to million\$, The Hulk or the Xmen games.

Hot tip, If you play the Hulk turn the lights off and the sound up.....unreal!!! And a bit scary.

Now as you keep playing after every good size win, check how much you can withdraw. Withdraw \$10 as soon as it has been released, and every \$10 thereafter.

Once you have made a few withdrawals between \$30-\$50 (leaving some money in Europa Casino) take this amount and deposit it into City Club casino, where you will receive a 400% deposit bonus.

If you have done this right and had a bit of luck you will have a good size bankroll Still in Europa Casino and a large balance in City Club Casino

I will quickly cover the steps again:

- 1.Create an account at [Europa Casino](#).
- 2.Deposit between \$35 and \$50.
- 3.Keep checking at the cashier to see what you can withdraw.
- 4.Start withdrawing, once \$10 is released, and every \$10 after that.
- 5.Take your winnings and deposit them into [City Club Casino](#).

Tip: Play at a few different casinos, when you haven't been back to a casino for a few weeks they will offer you large bonuses for you to head back.

Another Tip: Hold out depositing before or around your birthday.....you will be given more bonuses than you know what to do with.

[Click Here](#) to play now at Europa Casino.

Alternative Casinos:

[Rushmore Casino](#) Bonus code **400FREE**

[Cherry Red Casino](#) Bonus code **777FREE1**

***Redeem the Coupon Code in the "Redeem Coupon" section of the cashier after making your 1st deposit, but before making any wagers to take advantage of this amazing offer!*

Direct Deposit Technique:

The direct deposit is not a system, but a very straight forward technique. Using this technique will mean you don't get locked into play through rates. Being a precise player you will want to have full control of your deposits.

For this to work I have picked casinos that use a bonus code, that is manually entered, so you don't have to use the bonus. So you won't be tied into a massive play through rate.

This system will work at Rushmore Casino, and Cherry Red Casino.

If you decide to play casinos other than the ones I have selected make sure they don't have a hidden play through rate.

These casinos have a 1x play through rate, but that is standard and is in place to stop money laundering.

These casinos have 24hr withdrawal, so you can spend your winnings. Some casinos, pay out at the end of the month, or after a week which just sucks.

Step:

1. Create an account at [Rushmore Casino](#).
2. Deposit your desired amount into the cashier (I recommend around \$50)
3. Select a pokie to play. Try Cleopatra's Gold
4. Use my Bankroll manager to decide the optimal amount to play per line.
5. Withdraw your winnings when you see fit.

With this technique you aren't locked in so you are able to withdraw freely.

Deposit Manager:

\$25 to \$50 bet 1c a line (1c x 25 lines = 25c x 100 spins = \$25).

\$50 to \$100 bet 2c per line (2c x 25 lines = 50c per spin x 100 spins = \$50).

\$100 play or more at 4c per line (4c x 25 lines = \$1.00 x 100 spins = \$100).

Pokie tips

In the time I have been playing pokies, I have learnt a load of different tips and tricks. Some of these are common practice, some I have learnt myself, and some I have learnt from other players.....Pokies are built on a random number generator with a set payment. You will find some pokies play a bit tighter than others. This is more common at the casino, as they will place tight machines in high foot fall areas.

You will quickly learn online pokies tend to be fairly consistent in their payouts, but don't force a machine when you're not winning. Play a different game!!!

One of the best things Mark, Adam and I would do is play late in the evening. After all the social players had filled the machines, we would

walk in and cash in. With online pokies there is no bad time to play. However you might find a better time to play that works for you.

Tips:

Tip 1: The best tip I can give, which every player needs to know, is know when to stop. Set yourself a limit for each playing session.

Tip 2: Play online. I guess I have been banging on about playing online throughout this guide, but online casinos payout much better, and give you much better bonuses.

Tip 3: If you find something you do and win, keep it up. I used to have a little trick of depositing \$6 (3 x \$2 coins) and I would often get a feature. I used to call it tricking the feature. There is no evidence to support this, but it worked for me. If you find something like this keep trying it.....you never know.

Tip 4: Don't listen to your friends when they say the symbols are lining up, and a feature is coming. Use my bankroll management system to get the most out of your spins.

Tip 5: Use [Neteller](#) for safe payments. This ewallet will make sure your payments, and winnings are kept safe.

Top 5a: Signup for the pre paid credit card at [Neteller](#), and use it at land based casinos. Before heading out top it up with your "play money" for the evening and leave your other cards at home. This will stop you from over-spending.

Tip 6: Read the pay tables. You need to find out what the feature is, and the substitute symbols are. Along with how many free games each feature is.

Tip 7: Take your winnings home.....Every casino spends thousands on learning how to keep you in their casino and walking home with empty pockets. You need to learn when to walk out. On your first win withdraw what you started with. i.e. if you have a bankroll of \$50 and you win \$150 put \$50 in the deepest part of your pocket. At least then you will not be

down.....The same rules apply when playing online. Withdraw your winnings at the cashier.

Tip 8: Maximize your luck. When you are on a hot streak, keep playing. When you are losing, walk away.

Tip 9: If you are using a system, like our bonus blaster system, don't tell anyone. These are not illegal at all, but frowned upon from online casinos. The less they know the better.

Short of bribing a casino worker (not recommended) these guides and tips will help you take more home from the pokies whether it be online, at a casino, or at the local bar.

[Click here to play at Rushmore Casino](#)

Conclusion.

I hope you have found this ebook beneficial, and enjoyed reading as much as I have enjoyed reading it. Please feel free to email me if you have any further questions.

Keep an eye on your inbox for some emails from me.....I will let you know if I find a new casino, system, ebook, or a jackpot about to blow.

I am creating version 2 of this book so keep your eye out for it. Plus don't forget to visit <http://cityclubpokies.com> for full reviews of these sites and loads of great pokie news, reviews, and more bonuses.
